

KE-430FS

Electronic direct drive lockstitch bar tacker

Stable thread tightening and thread trimmer when sewing from medium materials to heavy materials. High quality sewing will be realized on various materials.

With extremely low noise and vibration, it provides operator-friendly sewing environment.

- -Beautiful and stable sewing
- -Extremely low noise and vibration for operator-friendly sewing
- -Environment-conscious

1 Greatly improves the sewing quality

In addition to the stability of sewing for heavy materials, new suitable thread take-up for medium materials is added. With the best thread take-up for each material,it greatly improves the sewing

quality. Moreover, basic spring tension is a standard equipment in order for operators to adjust texture directly.

Extremely low noise and vibration for operator-friendly sewing

Optimal design by computer analysis, optimal control for direct drive motor and feeding motor reduced sewing noise and vibration greatly. It helps reduce stress and fatigue of operators and supply operator-friendly environment.

3 High Energy Saving

New Brother-developed motor realizes high energy saving with direct drive system which minimizes loss of power transmission.

Sewing Patterns List (KE-430FS)

The sewing patterns shown below have been preset into the sewing machine and can be selected according to specifications. (Any sewing pattern is available as long as it is within the work clamp and feed plate in size.) Use the work clamp and feed plate that match the respective sewing pattern selected.

For medium materials
